

DREAMER

A home away from home

The Dreamer is a popular model for couples, groups of friends or families looking for a home away from home. This lodge has front walls that can be rolled up to expand the terrace and create a real outdoor living space, where your guests can enjoy a quiet moment with a drink or a book and take in the view.

Its simple design belies the luxury within. It comes complete with its own stylish, well-equipped kitchen, dining area and bathroom. Besides a living room, there are separate bedrooms with enough space for proper beds, to ensure your guests have a good night's sleep. With the Dreamer 40 model, you can opt for an open kitchen with a bar on the veranda for the ultimate outdoor living experience. It is perfect for a family holiday or a breakaway with friends.

Our Dreamer is available in two sizes and can be laid out in multiple ways for flexible positioning on many sites. The lodge is suitable for groups of four to seven people.

- ✔ Comfortable, luxurious and simple design
- ✔ The perfect family lodge with a spacious veranda and living space
- ✔ Multiple layouts possible, so you can create the ideal lodge for your guests
- ✔ Option to create an open kitchen with a bar to have a focal point for groups of friends
- ✔ Spacious, yet comparable to the size of a mobile home

SPECIFICATIONS DREAMER

Elements	Colour	Specifications	Technical standards
PVC Roof	Beige Brown Green	UV and flame retardant PVC 650gr/m ² . The PVC is easy to clean and meets the stringent European, British and American fire regulations (M2, B1 and DIN 4102 standard).	BS 7837 DIN 4102 – Class B1 M2 Classification NFP 92-503 EN 13501-1 B-s3, d0 Total weight DIN and ISO 2286-2 – 650 gr/m ²
Canvas inner tent	Beige	Flame retardant and Royal Ten Cate Campshield 420gr/m ² with the same unique breathability as cotton. In 2009 Ten Cate outdoor Fabrics introduced an innovative fabric with inherently flame retardant properties. The fibers in this fabric provide extra security and protection. It is scorch, glow and spark resistant. Textile material that is flame retardant has an inhibiting effect on the occurrence of fire and slow fire spreading. The Royal Ten Cate Campshield meets with the strict standards of the European, British and American fire regulations. The Campshield of Ten Cate is designed for year round use (summer-winter). It will remain in perfect condition, in all kind of weather standards for many years and is water and dirt repellent. The windows are double layer made of mosquito net and transparent PVC. They can be closed with roll downs blends.	BS 7837: 1996 DI N 4102 part 1 – 1998Of Class B2 M2 Classification NFP 92-503 (1995) CSE RF 1/75/A (1984) Comfort CPAI 84 Water- and dirt repellent Weight 420gr/m ² + 5%
Fixing		The inner tent hanging system is a unique system. It has point loading, so the weight is distributed by multiple fixing points across the surface of the structure.	
Construction		The connectors of the construction are made from 2.9mm hot dipped galvanized steel. The poles have a dia of 80 or 100mm.	

Why choose us?

It's all in the detail. Our beautiful, sustainable glamping tents are not mass produced, but are created by a team of specialists with a passion for outdoor living. We personally manage every aspect, from the initial concept and product design, to the sourcing of eco-friendly materials and construction, to quality control. And it doesn't stop there, we provide ongoing service and support, long after you have bought your tent or lodge.
