

# ECLIPSE

## Spacious and stylish design

The Eclipse is one of our newest spacious models. A luxurious canvas lodge with a stylish and contemporary design that will provide the perfect getaway for your guests. It is the elongated version of our Twilight model.

Our Eclipse is ideal for families or a group of friends looking for an adventurous outdoor stay with an extra touch of luxury. It comes complete with a kitchen, a bathroom with the possibility to add a bathtub, two or three bedrooms and a veranda with fences to offer privacy.

This canvas lodge has multiple layouts and a modular system, so you can choose between different wall materials and window sizes. This means you have the flexibility to design the inner space according to your wishes.

- ✓ An adventurous and luxurious design that is available in a stylish light colour, offering a unique accommodation option
- ✓ Modular system for extra flexibility and a surprising look and feel
- ✓ Sturdy hardwood masts for increased strength and a roof edge fitted with steel cable tensioning
- ✓ Extra spacious because of its height

# SPECIFICATIONS ECLIPSE

Elements	Colour	Specifications	Technical standards
PVC Roof	Grey Beige Brown Green	UV and flame retardant PVC 650gr/m <sup>2</sup> .  The PVC is easy to clean and meets the stringent European, British and American fire regulations (M2, B1 and DIN 4102 standard).	BS 7837  DIN 4102 – Class B1  M2 Classification NFP 92-503  EN 13501-1 B-s3, d0  Total weight DIN and ISO 2286-2 – 650 gr/m <sup>2</sup>
Flame retardant Polyester (FPTC420)	Any color	Flame retardant 420 gr/m <sup>2</sup> . The fibers in this fabric provide extra security and protection. It is scorch, glow and spark resistant. Textile material that is flame retardant has an inhibiting effect on the occurrence of fire and slow fire spreading.	FPTC420 meets the following standards:  Weight 420gr/m <sup>2</sup> + 5%  Standered width: 150 cm  Tearing strenght: ±10%  - Warp: 79N  - Weft: 53N  Tensile strength: ± 10%  - Warp: 2800N/5 cm  - Weft: 2232N/5 cm  Watercolumn: ≥ 400mm  Color fading level: GR6   ISO105B04-1994  Mildewtreated: Level 0   AATCC30-2017  Fireproof level:  - M2   B2  - AS/NZS 1530.2-1993  - BS7837-1996
Fixing		The inner tent hanging system is a unique system. It has no point loading, so the weight is equally distributed across the surface of the structure.	

## Why choose us?

It's all in the detail. Our beautiful, sustainable glamping tents are not mass produced, but are created by a team of specialists with a passion for outdoor living. We personally manage every aspect, from the initial concept and product design, to the sourcing of eco-friendly materials and construction, to quality control. And it doesn't stop there, we provide ongoing service and support, long after you bought your tent or lodge.
