

STELLA

Unique and spacious

The Stella is the perfect luxury safari lodge to offer your guests a high-end hotel experience in the middle of nature. The unique roof of the Stella safari lodge stands out and distinguishes your glamping site from other campsites and holiday parks.

Couples will enjoy a fantastic stay in this luxury safari lodge. The spacious bedroom features a sitting area and an en-suite bathroom. Guests use a compact kitchenette to make a cup of coffee or tea, and you can fill the refrigerator with refreshing drinks before your guests arrive. Guests can visit your restaurant for breakfast, lunch, and dinner or order room service.

The many windows along the side of the Stella safari lodge and the fully open front provide plenty of light and an optimal outdoor experience. The mesh fabric ensures ventilation and prevents insects from entering.

The luxurious interior has been carefully composed and gives the lodge extra comfort and a cosy ambience. Due to the robust wooden structure and the steel construction of the roof, the Stella can withstand heavy weather conditions. The wooden floor is attached to the galvanised steel chassis. Optionally, you can choose a hardwood floor.

This high-end safari lodge was designed by our partner Ray Design.

- ✔ A unique experience thanks to the impressive design of the roof
- ✔ Luxury and space give the feeling of a 5-star boutique hotel
- ✔ Perfect for couples
- ✔ A comfortable bedroom with en-suite bathroom

SPECIFICATIONS STELLA

Elements	Colour	Specifications	Technical standards
Ferrari PVC	Taupe and Sand	<p>Serge Ferrari- Flexlight Lodge 6002 is a highly resistant membrane: waterproof, fireproof fabric with a grainy texture and a matt finish for a natural, cotton-like effect.</p> <p>Its PVDF varnish makes outdoor stains (tree sap, dead leaves, etc.) easy to clean. Ideal for the roofs and walls of eco-friendly bungalows and lodges, this phthalate-free fabric is Greenguard certified for indoor air quality and 100% recyclable.</p>	<p>Ferrari PVC 630 gr/m² meets the following standards:</p> <p>Weight 630 gr/m² - EN ISO 2286-2</p> <p>Width 260 cm</p> <p>Standard format length 50 lm</p> <p>Tensile strength (warp/weft): - 250/250 daN/ 5cm (EN ISO 1421)</p> <p>Tear strength (warp/weft): - 20/20 daN (DIN 53.363)</p> <p>Flame retardancy:</p> <p>M2/NFP 92-507 B1/DIN 4102-1 CAN/ ULC-S109 METHOD 2/NFPA 701 VKF 5.3/SN 198898 Classe 2/UNI 9177 BS 7837 1530.3/ AS/NZS G1/GOST 30244-94 Class A/ASTM E84 M2/UNE 23 727-90 CSFM T19 • CPAI 84</p>
Polycotton	Beige	<p>A unique mix of four fibres which makes the canvas roofs and sidewalls from the fibre flame retardant, breathable and moisture regulating.</p> <p>The fibres in the tent canvas provides extra safety and protection. The fabric is resistant to scorching, annealing and sparks. Textile material which is flame-retardant has an inhibiting effect on the origin of fire and therefore delays the spread of fire.</p>	<p>Polycotton meets the following standards:</p> <p>PPAN-fr/CV/PVA-fr/PVA</p> <p>Weight 420gr/m²</p> <p>Watercolumn: 400mm</p> <p>DIN 4102 Class B2</p> <p>BS 7837 – NFP 92-503 M2</p> <p>Finish: water, mildew and dirt repellent</p>
Frame material		A combination of steel and wood	<p>Steel: EN1993</p> <p>Wood: EN1995/ FSC Certified</p>
Floor frame		Galvanised steel chassis	EN1993
Floor top		Standard Norwegian Pinus Sylvestris/Kebody	FSC Certified/EN 350
