

# SUNSHINE

## Stylish and robust

The Sunshine is inspired by a classic African safari tent with a robust wooden frame and canvas walls. Whilst we cannot promise that your guests will see herds of wildebeest or the occasional passing lion, we do promise they will have a comfortable stay, with a spacious veranda to take in the views.

The Sunshine provides your guests with all the comfort they need, and it is the ultimate glamping experience.

This canvas lodge is available in three sizes with multiple layouts, which allows you to fill your campsite or holiday park efficiently. The Sunshine can be equipped with a pellet-stove to extend your season, or you can add air-conditioning, to provide your guests with even more comfort during the summer. Add a swing to the veranda for a fun touch.

This lodge can also be used for group accommodation.

- ✓ Solid quality and long-term durability for a strong ROI
- ✓ A classic African safari tent to help you create a traditional glamping site
- ✓ Sturdy wooden beams and fire-retardant canvas walls
- ✓ Multiple layouts are possible, tailored to your needs

# SPECIFICATIONS SUNSHINE

Elements	Colour	Specifications	Technical standards
PVC Roof	Beige Brown Green	UV and flame retardant PVC 650gr/m <sup>2</sup> .  The PVC is easy to clean and meets the stringent European, British and American fire regulations (M2, B1 and DIN 4102 standard).	BS 7837  DIN 4102 – Class B1  M2 Classification NFP 92-503  EN 13501-1 B-s3, d0  Total weight DIN and ISO 2286-2 – 650 gr/m <sup>2</sup>
Canvas inner tent	Beige	Flame retardant and Royal Ten Cate Campshield 420gr/m <sup>2</sup> with the same unique breathability as cotton. In 2009 Ten Cate outdoor Fabrics introduced an innovative fabric with inherently flame retardant properties. The fibers in this fabric provide extra security and protection. It is scorch, glow and spark resistant. Textile material that is flame retardant has an inhibiting effect on the occurrence of fire and slow fire spreading.  The Royal Ten Cate Campshield meets with the strict standards of the European, British and American fire regulations. The Campshield of Ten Cate is designed for year round use (summer-winter). It will remain in perfect condition, in all kind of weather standards for many years and is water and dirt repellent.  The windows are double layer made of mosquito net and transparent PVC. They can be closed with roll downs blends.	BS 7837: 1996  DI N 4102 part 1 – 1998Of Class B2  M2 Classification NFP 92-503 (1995)  CSE RF 1/75/A (1984)  Comfort CPAI 84  Water- and dirt repellent  Weight 420gr/m <sup>2</sup> + 5%
Fixing		The inner tent hanging system is a unique system. It has point loading, so the weight is distributed by multiple fixing points across the surface of the structure.	
Construction		The connectors of the construction are made from 2.9mm hot dipped galvanized steel.  The poles have a dia of 80 or 100mm.	

## Why choose us?

It's all in the detail. Our beautiful, sustainable glamping tents are not mass produced, but are created by a team of specialists with a passion for outdoor living. We personally manage every aspect, from the initial concept and product design, to the sourcing of eco-friendly materials and construction, to quality control. And it doesn't stop there, we provide ongoing service and support, long after you have bought your tent or lodge.
