

## REVERSE BAFFLE

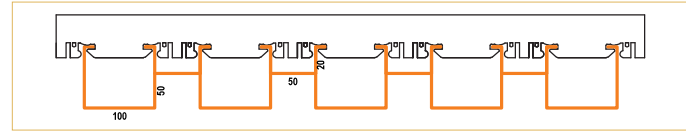

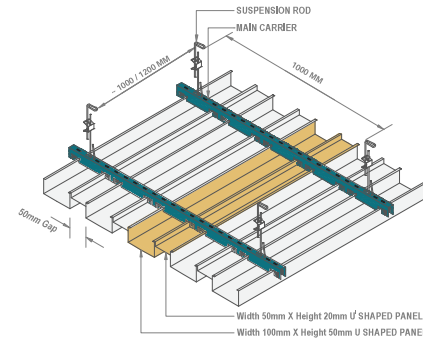

Baffles contribute to modern ceiling designs and are extremely easy to mount. Innovating to offer an end-to-end, finished look, we present our Reverse Baffles which accentuate your contemporary ceiling interiors without compromising on the overall form & benefits of the structure.

A pattern of alternate panels don't just offer a modern feel & enhanced acoustics to the space, but our reverse baffles render a clean, sophisticated look and a clutter-free, uniform ceiling design.

**APPLICATION:** Metro Stations, Commercial Lobby, Conference Room, etc.
