

SENTIO

order cables in areas such as workplaces and offices and put an end to the mess

Sentio aluminum skirting board is mostly preferred in areas with large gaps between wall and floorings due to its wide form. With the extended hollow area in its design, it collects the telephone, electricity and internet cables to organize environments such as workplaces and offices. It covers the defects in floor and wall joints. It prevents dirt accumulation and harmful organisms to provide hygienic and healthy use for many years.
